Can you catch gonorrhea from sitting?

OK, I know that sitcoms aren't that consistent with reality, but in Seinfeld one of Jerry's girlfriends claims to have caught gonorrhea from sitting on a tractor while wearing a bathing suit?!?!

how about masturbation? can you infect yourself if your hands aren't very clean?

The only way you will get it sitting is if that's your preferred [sex position](#). To get [gonorrhea](#), you will need to stick Mr. Happy in someone that is infected with it. Even then, you have an 80% chance of not getting it.

Answering your masturbation question: not unless you are masturbating inside of a p***y.:)

well, if I was wearing nothing on bottom, and gyrating my junk on the chair... then yeah, i could get a disease from it

assuming whoever left the disease on the chair did so within a recent time frame

Zombie Jesus

i would imagine you could under the right condition. if your pants are up when you sit. if your bare butted with an open sore you might.

the cure is pull your pants up or put something underself when you sit.

hope this helps

uzingmyb...

ONLY IF YOU ARE HAVING SEXUAL INTERCOURSE WHILST SITTING.
YOU CAN INFECT YOURSELF WITH DIRTY HANDS, BUT NOT WITH GONORRHEA.

meema

i dont know.

yah you can infect urself if your hands arent clean. eww any infections can start if your not cleansed. wash your hands please.
